ACTION OF CLEMENCAU APPROVED BY ROMANS

Crowd Gathers Near Vatican and Expresses Its Pleasure.

STREETS GUARDED BY TROOPS

Great Demonstration at Statue of Bruno Who Was Burned for Thinking as He Pleased—Cavalry Forced to Charge Demonstrators.

Rome, Dec. 18.—Thousands of demonstrators friendly to France and of anti-vatican tendencies gathered Sunday night in the plazza adjoining the Farnese palace, the seat of the French embassy, in an endeavor to express their pleasure at France's action towards the church.

The whole garrison of Rome was employed to face the demonstrants and protect the vatican, which is surrounded by cavalry and the bridges leading to the apostolic palace are barred by troops. All the streets leading to the palace Farnese are protected by soldiers, with fixed bayonets.

The demonstrators, led by a dozen radical socialists and republican members of the chamber of deputies including prince Borghese, after vainly attempting to break the cordon, provided themselves with candles and formed into a mock procession, intoning the miserere as an indication of the death of clericalism amidst the cries of "Long Live France, "Long Live Clemenceau," and "Down with the Vatican."

Deputies Costa and de Felice tried to harangue the people, but the police interferred.

The demonstration occurred near the monument to Giordano Bruno, the monk-philosopher, who was burned alive, a victim of religious intolerance.

Deputy Costa finally made himself heard. He said:

"Before this monument, to Bruno, of Free Thought, let us send our applause to France for this great people, continuing the traditional obstinate struggle against the moth-eaten clericalism."

Fresh attempts were made then to beat back the cordon and the cavalry charged the demonstrators, a few of whom were slightly injured and several arrested. Amid roars and shouts and the singing of the Marseillaise, the foment continued until late into the evening.

A commission of the demonstrators was received by M. Barerre, the French ambassador, who expressed his appreciation for the sympathy of the Roman people.

The government endeavored by all means to prevent the demonstration. The stand the government is taking is that, although Italy is friendly to France, she does not wish to take sides in the dispute, and especially when her relations with the church are better now than they have been since 1870.

The socialist federation has decided to organize throughout Italy for a simultaneous expression of sympathy with France, and is forming a committee to be composed of all the democratic parties for anti-clerical agitation.

Pope Pius Sunday received in private audience Mrs. Daniel Lamont and her daughters. They were presented by Mgr. Kennedy, rector of the American college. To them the pope exclaimed: "My greatest consolation now comes from America."

The extreme parties strongly protest against the repression of Sunday's popular demonstration here in sympathy with France, and are organizing new manifestations. The leaders urge their followers in the meantime to leave their cards at the French embassy where they are piling up by the thousands.

SEN. BAILEY SAYS HE'LL WIN.

He Issues Statement Regarding the Texas Legislature.

Gainesville, Tex., Dec. 18.—Senator Bailey has arrived from San Antonio, and after reading his mail and telegrams, he issued the following statement:

"Answering numerous inquiries from my friends, I state that from letters and telegrams to me and from signed statements in the newspapers by members of the senate and house since my answer to Attorney General Davidson's statement, I count positively 2 members of the house, who are pledged to vote for me. Besides these voluntary pledges, I observe from the newspapers and hear from reliable friends that 12 other members have declared that they will vote for me, as instructed by the primaries. This makes a total of 116 on joint ballot Several other members are ranked as doubtful, and a few more, who have not spoken, I am confident, will support me, though they have not said so in so many words. I am perfectly satisfied as I declared several days ago that not 15 votes will be cast against me."

The house numbers 132, and the senate 31; total 163; necessary to elect, 86.

JENKINS SHOOTS HIS UNCLE.

Tragedy at the Marshall House, at Savannah, Ga.

Savannah, Ga., Dec. 18.—Henry W. Jenkins, proprietor of the Marshall house, in this city, shot and fatally wounded Samuel J. Jenkins, his uncle.

Henry Jenkins was arrested some hours after the shooting occurred. He claims he fired in self-defense. The elder Jenkins killed a man named Stanley, some years ago. He was convicted and sentenced to the penitentiary, from which he was pardoned, after serving five years.

The elder Jenkins had been drinking for some time, and his nephew, sent a telegram of remonstrance to an uncle in north Georgia. Word of this reached Samuel Jenkins, who called at the Marshall house.

In a statement, supposedly made at his ante-mortem declaration, Samuel Jenkins says that he had simply remonstrated with his nephew and then sat upon a box. Thereupon Henry Jenkins drew a revolver and fired twice, both shots taking effect.

The wounded man was taken to a hospital and operated upon. It is said he cannot live more than 24 hours.

Receive Wage Increase.

Boston, Dec. 18.—The week before Christmas was ushered in happily Monday for nearly 20,000 operatives employed in the cotton mills at Lowell and Chicopee when an advanced wage scale went into effect. In Lowell the manufacturers granted to about 17,000 operatives last Friday at 5 per cent increase in wages. The textile council, therefore, decided to postpone action on their 10 per cent demand until next Sunday. By New Years 175,000 cotton mill operatives all over New England are expected to be participating in an advance in wages amounting to from 5 to 10 per cent.

BAILIFF FOUND DEAD; MURDER SUSPECTED

Lanlady of Lodging House Is Held by Coroner's Jury.

STORY OF THOSE IN THE HOUSE

Police Belive Dodgen Was Killed in House and His Body Thrown Upon Porch—Coroner's Jury Secures Sensational Evidence from Witnesses.

Atlanta, Dec. 18.—The dead body of John G. Dodgen, a bailiff, who lived at 121 West Pine street, was discovered early Sunday morning on the rear porch of a lodging house at 50½ Marietta street, with a bullet hole in the back of his head.

That a foul murder has been committed is confidently believed by the police and detectives, who alleged that there is evidence to show that Dodgen was murdered inside the house and his body thrown out upon the porch to mislead the officers of the law.

Mrs. Willie Stamper, who occupied the house, is under arrest, and she admits that she fired one shot through a closed door to prevent an intruder from forcing his way into the hall, and that Dodgen was killed by the shot as he stood on the outside.

Two other women, Mrs. Bessie B. Garr, of 15 Bush street, and Addie Goss, of 55 Tennelle street, were also taken into custody, as they were in the house at the time of the shooting.

Robert A. Jordan, who was also in the house, and who admitted that he knew something of the killing, was held by the police for the coroner's inquest, which took place Sunday afternoon.

All four of these people were ordered held for further investigation by the grand jury.

Outside of the three women and Jordan there were only two witnesses who could throw any light on the affair, and their evidence was contradictory in several particulars.

According to the story told by the inmates of the house, Dodgen and probably other men went to the rear door which opens on a porch from which leads a flight of stairs to the street. The lodging house is on a second floor over a vacant store. The women say that when an effort was made by the man or men on the outside to break down the door, Mrs. Stamper called out to them to desist, giving a warning that if they did not she would shoot. As they continued to beat upon the door she secured a pistol and fired one shot through the closed door.

They thought they heard men running away and not believing that anybody was hurt they went to bed, and knew nothing of the dead man on the porch until Sunday morning, when they were notified by a negro cook.

The theory of the police is that the man was murdered in the house, and they base this on the testimony of the special railroad officer who heard two shots, and saw the flash of the second, and of a negro who thought he heard three shots, and discovered a man running from the house.

Besides this the officers say that there had been blood freshly washed from the floor of one of the rooms, and a woman's garment was found which bore unmistakable evidences of blood.

If the theory of the officers of the law is true, then the killing occurred in the following way:

Dodgen went to the house to see one of the women. He was refused admittance, but entered anyhow. There ocurred a fight of some kind in the middle room and Dodgen was shot in the back of the head. The dying man was dragged to the rear door and thrown out upon the porch, where he soon died. The officers believe that this was the shot seen by a special railroad officer who was a witness at the inquest.

KILL THOUSANDS TO WIN PEACE

Czar's Policy Seems to Have Been Successful.

EXECUTIONS BECOMING COMMON

Reports Show that Poland Has Been "Pacified," but at an Appalling Cost the Number of Victims Reaching Into the Thousands.

Warsaw, Russian Poland, Dec. 18.—Reports received from points throughout Russian Poland show that the government's policy of firmness has been successful in subduing the last of the smouldering sparks of revolution. This result was accomplished at a terrible cost to the Polish people, the number of victims being estimated at thousands. Business has become stagnant, the trades and industries are bankrupt, and the masses are dispirited and in a state of poverty.

Reports from Censtochova, which is a typical Polish town with a population of about 50,000, including a great many Jews, show that seven so-called terrorists have been tried by drum-head courtmartial and executed in the last two days.

In the early part of the week five terrorists were tried, convicted and shot here, as also were three at Sieradz, near Kalisz, two at Tomaszow and one at Lomza.

Despite the depressing effect of this martial rule, the Poles are busily engaged in organizing their forces for the next parliamentary elections.

For the time being party differences have been forgotten, and the national spirit has brought about a merger of the three great Polish parties—conservative, progressive and democratic. These are selecting fusion candidates representing Polish national ideals. The new Polish school system is also bringing out evidence of national energy as the permission to establish private schools with Polish teachers has already resulted in the formation of 800 schools, with an attendance of 75,000 Polish children.

Altogther, despite the darkness of the present martial conditions, the situation has been somewhat relieved by new evidences of the indomitable spirit of the Polish people asserting itself.

GAINESVILLE CAN GET THE TOURIST TRADE

A Section Blessed by God Almighty For Its Diversities.

THIS BEAUTY IS NATURAL

And Will Attract the Admiration and Love of the Traveler—This Section Should Have Its Share of Northern Tourists.

Hon. Frederick H. Morse of Miami, for many years a representative of the Legislature from Dade county, was in the city Monday on business connected with the United States land office.

Mr. Morse, who is well posted on all matters along the East Coast, states that the tourist season has started a month earlier than usual, and that already a large number of clever people from the North and West are filling the excellent hotels and boarding houses of that section. The big hotels are opening this year earlier than ever before, and prospects are that they will remain open longer than usual, thus making the present season, which has already begun in earnest, one of the longest and most profitable the State has ever enjoyed.

"I cannot understand why you people of this section do not enjoy the presence of more tourists," Mr. Morse said. "We all recognize this section of the State, and especially Alachua and Marion counties, as substantial acquisitions to the State, where the farmer and the merchant and the laboring man—in fact all the people thrive and prosper; but you have a wonderful outlay of natural beauty, and there should be no reason why you could not command a large tourist business from the traffic which comes this way.

"Gainesville is a fine city, and I think a great deal of what I have seen here in educational and other lines I note your improvements in all lines, because I was in Gainesville several years ago. I notice your improvements in education, because the grand old East Florida Seminary brought you out—and I am proud now to see the fine University buildings erected here, which means that Gainesville will be recognized throughout the country as the Athens of Florida.

"Gainesville is all right, and promises to be one of the leading cities of the State, for you have the educational advantage, you have the commercial advantage, and you have the greatest of them all—the advantage of a country which God has embellished with all proper diversities of that which the soil sends forth, the advantage of land which gives you, by natural climatic conditions, everything which you want to raise, and with these an advantage in climate which is summer the year round, and which any living creature ought to appreciate."

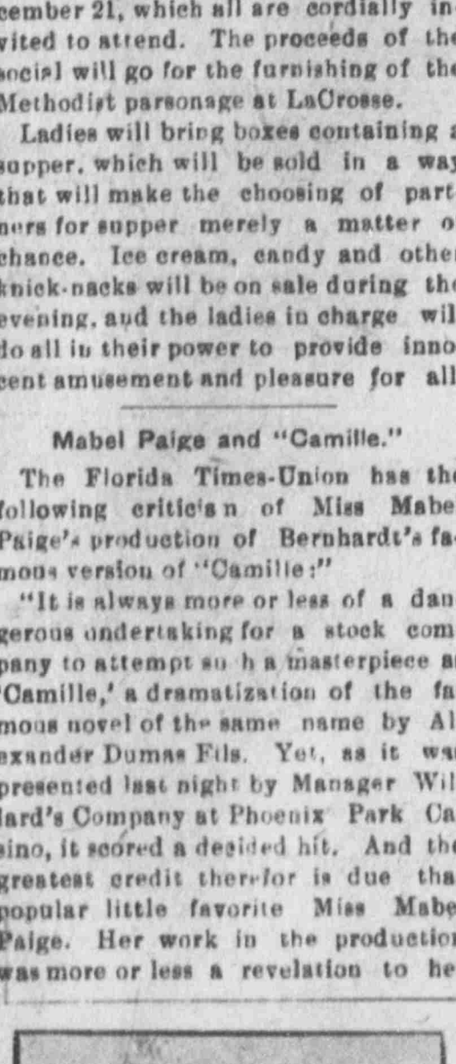
Mabel Paige and "Camille."

The Florida Times-Union has the following criticism of Miss Mabel Paige's production of Bernhardt's famous version of "Camille:"

"It is always more or less of a dangerous undertaking for a stock company to attempt such a masterpiece as 'Camille,' a dramatization of the famous novel of the same name by Alexander Dumas Fils. Yet, as it was presented last night by Manager Willard's Company at Phoenix Park Casino, it scored a decided hit. And the greatest credit therefor is due that popular little favorite Miss Mabel Paige. Her work in the production was more or less a revelation to her



Miss Mabel Paige.

many friends here, who, though they recognize her talents, may have doubted her ability to portray such a character as is that of "La Dame Aux Camillias." Yet Miss Paige did it, and did it satisfactorily, and the generous applause accorded her time and time again was richly deserved. In the strong emotional scenes she was particularly good, particularly in the love scenes with Armand Duval, and in the death scene, the last sad picture in the pathetically beautiful story of a woman's struggle for supreme happiness and love's renunciation. It was admirable, and Miss Paige will long be remembered for her work in 'Camille.'"

Miss Paige will produce "Camille" on Friday night at the opera house in this city.

Snyder's Moving Pictures.

Al Snyder's moving picture show was presented to the public at the opera house last night, and the entertainment was well attended.

There was shown a series of views of the great San Francisco fire, taken from the actual scenes, which impressed the audience a great deal. The Passion Play was also rendered, and this historic series, with the lecture, is so well known that it is impossible to say more than that it was a masterly production of the story, both in word and picture.

The entertainment will be given again tonight, with an interesting program.

In the contest for the toilet set offered, Miss Ida Colman received the largest number of votes as the most popular young lady in the city, she receiving 60 votes.

YOUNG PEOPLE'S SUPPER.

The Baptist Church Received Considerable Increase in Pavement Fund.

The young people's supper and bazaar, which was given for the benefit of the Baptist church paving fund Tuesday afternoon and evening, was a grand success financially and otherwise, and the venture will prove a great thing in paying off the indebtedness for the laying of the granolithic sidewalk around the church.

The young people who made this undertaking are to be congratulated for their success.

A. C. L. TRAINS ARE STILL BEHIND

Fifteen Hours Was One Train Between Palatka and Gainesville.

DELAYS BEYOND ANY REASON

The Service Becoming More Abominable Every Day, and Merchants Who Have Goods En Route Are Compelled to Wait For Many Days.

The service of the Atlantic Coast Line Railroad Company, which has been bad for several weeks, is becoming worse every day, and the general public is raising a "howl."

The northbound train, due in Gainesville from St. Petersburg and Ocala at 3:40 Monday afternoon, reached Gainesville at 3 o'clock Tuesday morning. One gentleman, a well known citizen of this city, stated that he was fifteen hours en route from Palatka to Gainesville, but that he was thankful to get here at all.

Nearly all trains are abominably late. Complaints are also coming from merchants. In many instances freights shipped from Jacksonville and other nearby points which should arrive in a few hours are delayed for days, and in one instance a package of freight from Hague to Gainesville, a distance of ten miles, required twelve days for delivery.

Reports come from points in South Florida that hundreds of cars along the system of the Atlantic Coast Line loaded with perishables are permitted to stand on the tracks until the contents are decayed, resulting in serious loss to the shippers.

BIG CONVENTION OF Y. M. C. A.

Will be Held in This City January 17 to 20 of Coming Year.

LARGE ATTENDANCE EXPECTED

It Will be a Meeting of Southwestern Division, and Many Speakers and Y. M. C. A. Workers of Prominence Will be Present.

The University is looking forward with great interest to the College Y. M. C. A. convention, which will be held here from Jan. 17 to 20. The associations to be represented are those in what is known as the Southwestern Division. A large attendance is hoped for and expected. Well known workers among college men will be present, among them such speakers as Mr. W. D. Weatherford, the general college secretary, and Mr. Cooper of New York. The meeting, to judge by similar conventions held in the past, will result in much good by increasing the enthusiasm of the Y. M. C. A. workers, and by fostering higher ideals of the spiritual life. We shall be glad to welcome as many as can come.

One of the pleasantest as well as one of the most profitable of our college exercises is the Wednesday morning address in chapel. On these occasions the usual religious services are begun ten minutes earlier than other days of the week, and the first class is given forty-five instead of fifty five minutes. The time thus gained is devoted to a talk by the president or by some one he has selected on some question of the day. The addresses so far have mainly discussed the issues suggested by the Cuban and Philippine problems.

The Experiment Station library is being arranged in its quarters by Messrs. Frank Weller and R. Y. Winters, the latest additions to the Station force. Mr. Weller is a graduate of last year's class of the University, and Mr Winters is a recent graduate of Clemson College. Both of these young gentlemen are taking graduate work in the University. In other things the Station is getting into working condition and it will not be long before the grounds and offices at Lake City will be abandoned and all the work be done here. Professor Rolfs' office already is prepared for him. Eighteen grade steers have been bought for experiments in feeding. Furthermore, several head of thorough-bred stock have been procured with the intention of making an attempt to improve the grade of cattle throughout the State.

The pleasure of the students is being considered in the building of tennis courts and in the preparation of a baseball park. The tennis courts are of particular interest at present, as we expect to have several inter-collegiate matches during the Y. M. C. A. convention, and steps will be taken to organize a Florida intercollegiate tennis association.

The Gypsies Are Here.

A band of Syrian Gypsies have arrived in the city, and are encamped near Green sink, in Southwest Gainesville.

While Gypsies as a rule are not very desirable visitors, in this instance they have proven profitable, as Monday they purchased and paid spot cash from C. C. Pedrick four wagons, aggregating in the vicinity of $150.

These Gypsies are on a long journey, having made their way from Canada. This is their first visit here, and they do not seem to understand our delightful, balmy climate at this season, but express themselves as "much glad" that they are here.

DEATH OF GOOD MAN.

Captain J. L. Brown, Well Known Citizen, Passes Away.

Captain J. L. Brown, seventy-two years of age and for twenty-four years a resident of this county, died at his home at Magnesia Springs, near Hawthorn, on Friday.

Deceased was a native of Indiana. Twenty-four years ago he came to Florida and, in connection with Dr. Simmons, the famous liver regulator manufacturer, purchased the celebrated Magnesia spring, near Hawthorn. It was his intention to make a great resort for kidney and bladder complications; but owing to litigation over the property covering a period of several years, which embarrassed him financially, he was never enabled to carry out his desired project.

Captain Brown was a Union soldier, retiring with the rank of captain. He was a member of the G. A. R.

Deceased was a very popular man, the result of his liberal spirit. He was for four years postmaster at Hawthorn, proving a most courteous and efficient official.

Deceased is survived by his devoted wife, who resides at Magnesia Springs, three sons, R. C. Brown, Grove Park, Homer L. Brown, whose residence is unknown, and William Brown of Terre Haute, Ind., and two daughters, Mrs. G. Hartwell Kelley of Rochelle and Miss Julia Brown of Grove Park.

The funeral was held in Hawthorn Saturday, and was largely attended, friends for several miles adjacent to that town having come as a last mark of respect.

The Sun extends sympathy to the bereaved relatives.

Woman Burned to Death.

Burlington, Vt., Dec. 18.—Mrs. Frank Coonrad is believed to have been killed and property, valued at about $40,000, was destroyed in a fire which consumed the American house block and badly damaged two adjoining blocks. Mrs. Conrad's body is thought to be buried beneath the ruins of the American house block.

Question and Answer.

When Nathan M. Morse was trying the Tuckerman will case before Judge McKim, Dr. Jelley, the well known expert on insanity, was one of the witnesses. One of the hypothetical questions asked of the witness by Mr. Morse contained no less than 20,000 words. The lawyer started this pithy question at the opening of court and closed only a few minutes prior to the noon adjournment. The point that Mr. Morse was endeavoring to bring out related to the mental condition of the testator when he made his will.

This is said to have been the longest single interrogation ever made in a court of law, and the answer comprised just three words, "I do not."—Huston Herald.

A German View of Our Diet.

Die Woche of Berlin tells its readers "what Americans eat," taking as a type the average New York business man. Hot cakes, quick lunch dishes, pie, Welsh rabbit, ice cream, grape fruit, oyster cocktails, pork and beans and many other purely American dishes and ice water are referred to as indigestion promoters. "All this," says the writer, "the American eats with relish. They are the dishes of the city and of the country. He balks at only four things—frankfurter sausages, sauerkraut, buttermilk and limburger cheese. These he calls 'Dutch foods.'"

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

Charlotte Bronte's Writing.

It is generally believed that "Jane Eyre" was written by Charlotte Bronte on the backs of old envelopes or very small scraps of paper, which the authoress carefully pinned together and numbered. Miss Bronte wrote so small a hand that some of her manuscripts can only be read by the aid of a magnifying glass. It is declared that on a piece of paper no larger than a playing card she would write from 400 to 500 words, and after that would insert so many corrections that the printer found it well nigh impossible to set it up. When she wrote "Jane Eyre" Miss Bronte had read few novels but those by Thackeray, whom she greatly admired. Thackeray complimented the authoress on her great book, but complained that the plot was familiar to him, whereupon Miss Bronte meekly replied that she thought it was original, inasmuch as she had read so little.

ACTION OF CLEMENCAU APPROVED BY ROMANS

Crowd Gathers Near Vatican and Expresses Its Pleasure.

STREETS GUARDED BY TROOPS

Great Demonstration at Statue of Bruno Who Was Burned for Thinking as He Pleased—Cavalry Forced to Charge Demonstrators.

Rome, Dec. 18.—Thousands of demonstrators friendly to France and of anti-vatican tendencies gathered Sunday night in the plazza adjoining the Farnese palace, the seat of the French embassy, in an endeavor to express their pleasure at France's action towards the church.

The whole garrison of Rome was employed to face the demonstrants and protect the vatican, which is surrounded by cavalry and the bridges leading to the apostolic palace are barred by troops. All the streets leading to the palace Farnese are protected by soldiers, with fixed bayonets.

The demonstrators, led by a dozen radical socialists and republican members of the chamber of deputies including prince Borghese, after vainly attempting to break the cordon, provided themselves with candles and formed into a mock procession, intoning the miserere as an indication of the death of clericalism amidst the cries of "Long Live France, "Long Live Clemenceau," and "Down with the Vatican."

Deputies Costa and de Felice tried to harangue the people, but the police interferred.

The demonstration occurred near the monument to Giordano Bruno, the monk-philosopher, who was burned alive, a victim of religious intolerance.

Deputy Costa finally made himself heard. He said:

"Before this monument, to Bruno, of Free Thought, let us send our applause to France for this great people, continuing the traditional obstinate struggle against the moth-eaten clericalism."

Fresh attempts were made then to beat back the cordon and the cavalry charged the demonstrators, a few of whom were slightly injured and several arrested. Amid roars and shouts and the singing of the Marseillaise, the foment continued until late into the evening.

A commission of the demonstrators was received by M. Barerre, the French ambassador, who expressed his appreciation for the sympathy of the Roman people.

The government endeavored by all means to prevent the demonstration. The stand the government is taking is that, although Italy is friendly to France, she does not wish to take sides in the dispute, and especially when her relations with the church are better now than they have been since 1870.

The socialist federation has decided to organize throughout Italy for a simultaneous expression of sympathy with France, and is forming a committee to be composed of all the democratic parties for anti-clerical agitation.

Pope Pius Sunday received in private audience Mrs. Daniel Lamont and her daughters. They were presented by Mgr. Kennedy, rector of the American college. To them the pope exclaimed: "My greatest consolation now comes from America."

The extreme parties strongly protest against the repression of Sunday's popular demonstration here in sympathy with France, and are organizing new manifestations. The leaders urge their followers in the meantime to leave their cards at the French embassy where they are piling up by the thousands.

He Issues Statement Regarding the Texas Legislature.

Gainesville, Tex., Dec. 18.—Senator Bailey has arrived from San Antonio, and after reading his mail and telegrams, he issued the following statement:

"Answering numerous inquiries from my friends, I state that from letters and telegrams to me and from signed statements in the newspapers by members of the senate and house since my answer to Attorney General Davidson's statement, I count positively 2 members of the house, who are pledged to vote for me. Besides these voluntary pledges, I observe from the newspapers and hear from reliable friends that 12 other members have declared that they will vote for me, as instructed by the primaries. This makes a total of 116 on joint ballot Several other members are ranked as doubtful, and a few more, who have not spoken, I am confident, will support me, though they have not said so in so many words. I am perfectly satisfied as I declared several days ago that not 15 votes will be cast against me."

In a statement, supposedly made at his ante-mortem declaration, Samuel Jenkins says that he had simply remonstrated with his nephew and then sat upon a box. Thereupon Henry Jenkins drew a revolver and fired twice, both shots taking effect.

The wounded man was taken to a hospital and operated upon. It is said he cannot live more than 24 hours.

BAILIFF FOUND DEAD; MURDER SUSPECTED

Lanlady of Lodging House Is Held by Coroner's Jury.

STORY OF THOSE IN THE HOUSE

Police Belive Dodgen Was Killed in House and His Body Thrown Upon Porch—Coroner's Jury Secures Sensational Evidence from Witnesses.

Atlanta, Dec. 18.—The dead body of John G. Dodgen, a bailiff, who lived at 121 West Pine street, was discovered early Sunday morning on the rear porch of a lodging house at 50½ Marietta street, with a bullet hole in the back of his head.

That a foul murder has been committed is confidently believed by the police and detectives, who alleged that there is evidence to show that Dodgen was murdered inside the house and his body thrown out upon the porch to mislead the officers of the law.

Mrs. Willie Stamper, who occupied the house, is under arrest, and she admits that she fired one shot through a closed door to prevent an intruder from forcing his way into the hall, and that Dodgen was killed by the shot as he stood on the outside.

Two other women, Mrs. Bessie B. Garr, of 15 Bush street, and Addie Goss, of 55 Tennelle street, were also taken into custody, as they were in the house at the time of the shooting.

Robert A. Jordan, who was also in the house, and who admitted that he knew something of the killing, was held by the police for the coroner's inquest, which took place Sunday afternoon.

All four of these people were ordered held for further investigation by the grand jury.

Outside of the three women and Jordan there were only two witnesses who could throw any light on the affair, and their evidence was contradictory in several particulars.

According to the story told by the inmates of the house, Dodgen and probably other men went to the rear door which opens on a porch from which leads a flight of stairs to the street. The lodging house is on a second floor over a vacant store. The women say that when an effort was made by the man or men on the outside to break down the door, Mrs. Stamper called out to them to desist, giving a warning that if they did not she would shoot. As they continued to beat upon the door she secured a pistol and fired one shot through the closed door.

They thought they heard men running away and not believing that anybody was hurt they went to bed, and knew nothing of the dead man on the porch until Sunday morning, when they were notified by a negro cook.

The theory of the police is that the man was murdered in the house, and they base this on the testimony of the special railroad officer who heard two shots, and saw the flash of the second, and of a negro who thought he heard three shots, and discovered a man running from the house.

Besides this the officers say that there had been blood freshly washed from the floor of one of the rooms, and a woman's garment was found which bore unmistakable evidences of blood.

If the theory of the officers of the law is true, then the killing occurred in the following way:

Dodgen went to the house to see one of the women. He was refused admittance, but entered anyhow. There ocurred a fight of some kind in the middle room and Dodgen was shot in the back of the head. The dying man was dragged to the rear door and thrown out upon the porch, where he soon died. The officers believe that this was the shot seen by a special railroad officer who was a witness at the inquest.

KILL THOUSANDS TO WIN PEACE

Czar's Policy Seems to Have Been Successful.

EXECUTIONS BECOMING COMMON

Reports Show that Poland Has Been "Pacified," but at an Appalling Cost the Number of Victims Reaching Into the Thousands.

Warsaw, Russian Poland, Dec. 18.—Reports received from points throughout Russian Poland show that the government's policy of firmness has been successful in subduing the last of the smouldering sparks of revolution. This result was accomplished at a terrible cost to the Polish people, the number of victims being estimated at thousands. Business has become stagnant, the trades and industries are bankrupt, and the masses are dispirited and in a state of poverty.

Reports from Cenustochova, which is a typical Polish town with a population of about 50,000, including a great many Jews, show that even so-called terrorists have been tried by drum-head courtmartial and executed in the last two days.

In the early part of the week five terrorists were tried, convicted and shot here, as also were three at Sieradz, near Kalisz, two at Tomaszow and one at Lomza.

Despite the depressing effect of this martial rule, the Poles are busily engaged in organizing their forces for the next parliamentary elections.

For the time being party differences have been forgotten, and the national spirit has brought about a merger of the three great Polish parties—conservative, progressive and democratic. These are selecting fusion candidates representing Polish national ideals. The new Polish school system is also bringing out evidence of national energy as the permission to establish private schools with Polish teachers has already resulted in the formation of 800 schools, with an attendance of 75,000 Polish children.

Altogther, despite the darkness of the present martial conditions, the situation has been somewhat relieved by new evidences of the indomitable spirit of the Polish people asserting itself.

Is Charged with Forgery.

Birmingham, Ala., Dec. 18.—What is regarded as an important arrest was made when Joseph L. Jenkins, was captured in a negro cottage at Thomas, on the outskirts of this city. He is charged with a large number of forgeries throughout the state during the past few weeks, the most important being on the First National bank, at Alexander City, Ala., and on the Merchants' bank, at Ensley and Pratt City. A number of rewards had been offered for his arrest. He is held at the Ensley jail and will be given a hearing later.

Drunken Man Kills Friend.

Sylvester, Ga., Dec. 18.—Mr. Jes Mercer, of Mercer's Mill, 15 miles north of Sylvester, was shot and instantly killed by one Barnes Sunday afternoon. He was shot with a single-barreled shotgun, the load taking his right arm off just above the hand and went into his stomach. He died instantly. Both parties were said to have been drinking. They were good friends and had been reared together and had never quarreled before. Coroner T. M. Coran will hold an inquest.

Kicked to Death.

Winchester, Ind., Dec. 18.—Dan Brown, aged 4 years, was kicked by a horse and died within a few minutes. His right eye was torn out and his forehead crushed, splinters of the skull entering his brain.

Big Box Factory Burns.

Baton Rouge, La., Dec. 18.—The plant of the Standard Box factory, manufacturers of packing boxes, was burned to the ground with a loss estimated at $50,000. The origin of the fire is unknown.

In a statement, supposedly made at his ante-mortem declaration, Samuel Jenkins says that he had simply remonstrated with his nephew and then sat upon a box. Thereupon Henry Jenkins drew a revolver and fired twice, both shots taking effect.

The wounded man was taken to a hospital and operated upon. It is said he cannot live more than 24 hours.

Receive Wage Increase.

Boston, Dec. 18.—The week before Christmas was ushered in happily Monday for nearly 20,000 operatives employed in the cotton mills at Lowell and Chicopee when an advanced wage scale went into effect. In Lowell the manufacturers granted to about 17,000 operatives last Friday at 5 per cent increase in wages. The textile council, therefore, decided to postpone action on their 10 per cent demand until next Sunday. By New Years 175,000 cotton mill operatives all over New England are expected to be participating in an advance in wages amounting to from 5 to 10 per cent.

BAILIFF FOUND DEAD; MURDER SUSPECTED

Lanlady of Lodging House Is Held by Coroner's Jury.

STORY OF THOSE IN THE HOUSE

Police Belive Dodgen Was Killed in House and His Body Thrown Upon Porch—Coroner's Jury Secures Sensational Evidence from Witnesses.

Atlanta, Dec. 18.—The dead body of John G. Dodgen, a bailiff, who lived at 121 West Pine street, was discovered early Sunday morning on the rear porch of a lodging house at 50½ Marietta street, with a bullet hole in the back of his head.

That a foul murder has been committed is confidently believed by the police and detectives, who alleged that there is evidence to show that Dodgen was murdered inside the house and his body thrown out upon the porch to mislead the officers of the law.

Mrs. Willie Stamper, who occupied the house, is under arrest, and she admits that she fired one shot through a closed door to prevent an intruder from forcing his way into the hall, and that Dodgen was killed by the shot as he stood on the outside.

Two other women, Mrs. Bessie B. Garr, of 15 Bush street, and Addie Goss, of 55 Tennelle street, were also taken into custody, as they were in the house at the time of the shooting.

Robert A. Jordan, who was also in the house, and who admitted that he knew something of the killing, was held by the police for the coroner's inquest, which took place Sunday afternoon.

All four of these people were ordered held for further investigation by the grand jury.

Outside of the three women and Jordan there were only two witnesses who could throw any light on the affair, and their evidence was contradictory in several particulars.

According to the story told by the inmates of the house, Dodgen and probably other men went to the rear door which opens on a porch from which leads a flight of stairs to the street. The lodging house is on a second floor over a vacant store. The women say that when an effort was made by the man or men on the outside to break down the door, Mrs. Stamper called out to them to desist, giving a warning that if they did not she would shoot. As they continued to beat upon the door she secured a pistol and fired one shot through the closed door.

They thought they heard men running away and not believing that anybody was hurt they went to bed, and knew nothing of the dead man on the porch until Sunday morning, when they were notified by a negro cook.

The theory of the police is that the man was murdered in the house, and they base this on the testimony of the special railroad officer who heard two shots, and saw the flash of the second, and of a negro who thought he heard three shots, and discovered a man running from the house.

Besides this the officers say that there had been blood freshly washed from the floor of one of the rooms, and a woman's garment was found which bore unmistakable evidences of blood.

If the theory of the officers of the law is true, then the killing occurred in the following way:

Dodgen went to the house to see one of the women. He was refused admittance, but entered anyhow. There ocurred a fight of some kind in the middle room and Dodgen was shot in the back of the head. The dying man was dragged to the rear door and thrown out upon the porch, where he soon died. The officers believe that this was the shot seen by a special railroad officer who was a witness at the inquest.

KILL THOUSANDS TO WIN PEACE

Czar's Policy Seems to Have Been Successful.

EXECUTIONS BECOMING COMMON

Reports Show that Poland Has Been "Pacified," but at an Appalling Cost the Number of Victims Reaching Into the Thousands.

Warsaw, Russian Poland, Dec. 18.—Reports received from points throughout Russian Poland show that the government's policy of firmness has been successful in subduing the last of the smouldering sparks of revolution. This result was accomplished at a terrible cost to the Polish people, the number of victims being estimated at thousands. Business has become stagnant, the trades and industries are bankrupt, and the masses are disparited and in a state of poverty.

Reports from Cenastochova, which is a typical Polish town with a population of about 50,000, including a great many Jews, show that those so-called terrorists have been tried by drum-head courtmartial and executed in the last two days.

In the early part of the week five terrorists were tried, convicted and shot here, as also were three at Sieradz, near Kalisz, two at Tomaszow and one at Lomza.

Despite the depressing effect of this martial rule, the Poles are busily engaged in organizing their forces for the next parliamentary elections.

For the time being party differences have been forgotten, and the national spirit has brought about a merger of the three great Polish parties—conservative, progressive and democratic. These are selecting fusion candidates representing Polish national ideals. The new Polish school system is also bringing out evidence of national energy as the permission to establish private schools with Polish teachers has already resulted in the formation of 800 schools, with an attendance of 75,000 Polish children.

Altogther, despite the darkness of the present martial conditions, the situation has been somewhat relieved by new evidences of the indomitable spirit of the Polish people asserting itself.

GAINESVILLE CAN GET THE TOURIST TRADE

A Section Blessed by God Almighty For Its Diversities.

THIS BEAUTY IS NATURAL

And Will Attract the Admiration and Love of the Traveler—This Section Should Have Its Share of Northern Tourists.

Hon. Frederick H. Morse of Miami, for many years a representative of the Legislature from Dade county, was in the city Monday on business connected with the United States land office.

Mr. Morse, who is well posted on all matters along the East Coast, states that the tourist season has started a month earlier than usual, and that already a large number of clever people from the North and West are filling the excellent hotels and boarding houses of that section. The big hotels are opening this year earlier than ever before, and prospects are that they will remain open longer than usual, thus making the present season, which has already begun in earnest, one of the longest and most profitable the State has ever enjoyed.

"I cannot understand why you people of this section do not enjoy the presence of more tourists," Mr. Morse said. "We all recognize this section of the State, and especially Alachua and Marion counties, as substantial acquisitions to the State, where the farmer and the merchant and the laboring man—in fact all the people thrive and prosper; but you have a wonderful outlay of natural beauty, and there should be no reason why you could not command a large tourist business from the traffic, which comes this way.

"Gainesville is a fine city, and I think a great deal of what I have seen here in educational and other lines I note your improvements in all lines, because I was in Gainesville several years ago. I notice your improvements in education, because the grand old East Florida Seminary brought you out—and I am proud now to see the fine University buildings erected here, which means that Gainesville will be recognized throughout the country as the Athens of Florida.

"Gainesville is all right, and promises to be one of the leading cities of the State, for you have the educational advantage, you have the commercial advantage, and you have the greatest of them all—the advantage of a country which God has embellished with all proper diversities of that which the soil sends forth, the advantage of land which gives you, by natural climatic conditions, everything which you want to raise, and with these an advantage in climate which is summer the year round, and which any living creature ought to appreciate."

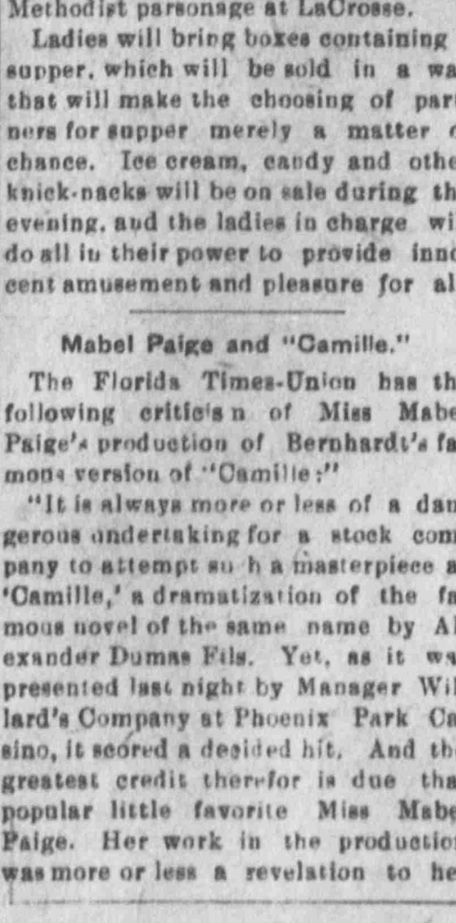
Mabel Paige and "Camille."

The Florida Times-Union has the following criticism of Miss Mabel Paige's production of Bernhardt's famous version of "Camille:"

"It is always more or less of a dangerous undertaking for a stock company to attempt such a masterpiece as 'Camille,' a dramatization of the famous novel of the same name by Alexander Dumas Fils. Yet, as it was presented last night by Manager Willard's Company at Phoenix Park Casino, it scored a decided hit. And the greatest credit therefor is due that popular little favorite Miss Mabel Paige. Her work in the production was more or less a revelation to her



Miss Mabel Paige.

many friends here, who, though they recognize her talents, may have doubted her ability to portray such a character as is that of "La Dame Aux Camillias." Yet Miss Paige did it, and did it satisfactorily, and the generous applause accorded her time and time again was richly deserved. In the strong emotional scenes she was particularly good, particularly in the love scenes with Armand Duval, and in the death scene, the last sad picture in the pathetically beautiful story of a woman's struggle for supreme happiness and love's renunciation. It was admirable, and Miss Paige will long be remembered for her work in 'Camille.'"

Miss Paige will produce "Camille" on Friday night at the opera house in this city.

Snyder's Moving Pictures.

Al Snyder's moving picture show was presented to the public at the opera house last night, and the entertainment was well attended.

There was shown a series of views of the great San Francisco fire, taken from the actual scenes, which impressed the audience a great deal. The Passion Play was also rendered, and this historic series, with the lecture, is so well known that it is impossible to say more than that it was a masterly production of the story, both in word and picture.

The entertainment will be given again tonight, with an interesting program.

In the contest for the toilet set offered [illegible] Ida Colman received the largest number of votes as the most popular young lady in the city, she receiving 60 votes.

YOUNG PEOPLE'S SUPPER.

The Baptist Church Received Considerable Increase in Pavement Fund.

The young people's supper and bazaar, which was given for the benefit of the Baptist church paving fund Tuesday afternoon and evening, was a grand success financially and otherwise, and the venture will prove a great thing in paying off the indebtedness for the laying of the granolithic sidewalk around the church.

The young people who made this undertaking are to be congratulated for their success.

A. C. L. TRAINS ARE STILL BEHIND

Fifteen Hours Was One Train Between Palatka and Gainesville.

DELAYS BEYOND ANY REASON

The Service Becoming More Abominable Every Day, and Merchants Who Have Goods En Route Are Compelled to Wait For Many Days.

The service of the Atlantic Coast Line Railroad Company, which has been bad for several weeks, is becoming worse every day, and the general public is raising a "howl."

The northbound train, due in Gainesville from St. Petersburg and Ocala at 3:40 Monday afternoon, reached Gainesville at 3 o'clock Tuesday morning. One gentleman, a well known citizen of this city, stated that he was fifteen hours en route from Palatka to Gainesville, but that he was thankful to get here at all.

Nearly all trains are abominably late. Complaints are also coming from merchants. In many instances freights shipped from Jacksonville and other nearby points which should arrive in a few hours are delayed for days, and in one instance a package of freight from Hague to Gainesville, a distance of ten miles, required twelve days for delivery.

Reports come from points in South Florida that hundreds of cars along the system of the Atlantic Coast Line loaded with perishables are permitted to stand on the tracks until the contents are decayed, resulting in serious loss to the shippers.

BIG CONVENTION OF Y. M. C. A.

Will be Held in This City January 17 to 20 of Coming Year.

LARGE ATTENDANCE EXPECTED

It Will be a Meeting of Southwestern Division, and Many Speakers and Y. M. C. A. Workers of Prominence Will be Present.

The University is looking forward with great interest to the College Y. M. C. A. convention, which will be held here from Jan. 17 to 20. The associations to be represented are those in what is known as the Southwestern Division. A large attendance is hoped for and expected. Well known workers among college men will be present, among them such speakers as Mr. W. D. Weatherford, the general college secretary, and Mr. Cooper of New York. The meeting, to judge by similar conventions held in the past, will result in much good by increasing the enthusiasm of the Y. M. C. A. workers, and by fosteringhigher ideals of the spiritual life. We shall be glad to welcome as many as can come.

One of the pleasantest as well as one of the most profitable of our college exercises is the Wednesday morning address in chapel. On these occasions the usual religious services are begun ten minutes earlier than other days of the week, and the first class is given forty-five instead of fifty five minutes. The time thus gained is devoted to a talk by the president or by some one he has selected on some question of the day. The addresses so far have mainly discussed the issues suggested by the Cuban and Philippine problems.

The Experiment Station library is being arranged in its quarters by Messrs. Frank Weller and R. Y. Winters, the latest additions to the Station force. Mr. Weller is a graduate of last year's class of the University, and Mr Winters is a recent graduate of Clemson College. Both of these young gentlemen are taking graduate work in the University. In other things the Station is getting into working condition and it will not be long before the grounds and offices at Lake City will be abandoned and all the work be done here. Professor Rolfs' office already is prepared for him. Eighteen grade steers have been bought for experiments in feeding. Furthermore, several head of thorough-bred stock have been procured with the intention of making an attempt to improve the grade of cattle throughout the State.

The pleasure of the students is being considered in the building of tennis courts and in the preparation of a baseball park. The tennis courts are of particular interest at present, as we expect to have several inter-collegiate matches during the Y. M. C. A. convention, and steps will be taken to organize a Florida intercollegiate tennis association.

The Gypsies Are Here.

A band of Syrian Gypsies have arrived in the city, and are encamped near Green sink, in Southwest Gainesville.

While Gypsies as a rule are not very desirable visitors, in this instance they have proven profitable, as Monday they purchased and paid spot cash from C. C. Pedrick four wagons, aggregating in the vicinity of $150.

These Gypsies are on a long journey, having made their way from Canada. This is their first visit here, and they do not seem to understand our delightful, balmy climate at this season, but express themselves as "much glad" that they are here.

DEATH OF GOOD MAN.

Captain J. L. Brown, Well Known Citizen, Passes Away.

Captain J. L. Brown, seventy-two years of age and for twenty-four years a resident of this county, died at his home at Magnesia Springs, near Hawthorn, on Friday.

Deceased was a native of Indiana. Twenty-four years ago he came to Florida and, in connection with Dr. Simmons, the famous liver regulator manufacturer, purchased the celebrated Magnesia spring, near Hawthorn. It was his intention to make a great resort for kidney and bladder complications; but owing to litigation over the property covering a period of several years, which embarrassed him financially, he was never enabled to carry out his desired project.

Captain Brown was a Union soldier, retiring with the rank of captain. He was a member of the G. A. R.

Deceased was a very popular man, the result of his liberal spirit. He was for four years postmaster at Hawthorn, proving a most courteous and efficient official.

Deceased is survived by his devoted wife, who resides at Magnesia Springs, three sons, R. C. Brown, Grove Park, Homer L. Brown, whose residence is unknown, and William Brown of Terre Haute, Ind., and two daughters, Mrs. G. Hartwell Kelley of Rochelle and Miss Julia Brown of Grove Park.

The funeral was held in Hawthorn Saturday, and was largely attended, friends for several miles adjacent to that town having come as a last mark of respect.

The Sun extends sympathy to the bereaved relatives.

Woman Burned to Death.

Burlington, Vt., Dec. 18.—Mrs. Frank Coonrad is believed to have been killed and property, valued at about $40,000, was destroyed in a fire which consumed the American house block and badly damaged two adjoining blocks. Mrs. Conrad's body is thought to be buried beneath the ruins of the American house block.

Question and Answer.

When Nathan M. Morse was trying the Tuckerman will case before Judge McKim, Dr. Jelley, the well known expert on insanity, was one of the witnesses. One of the hypothetical questions asked of the witness by Mr. Morse contained no less than 20,000 words. The lawyer started this pithy question at the opening of court and closed only a few minutes prior to the noon adjournment. The point that Mr. Morse was endeavoring to bring out related to the mental condition of the testator when he made his will.

This is said to have been the longest single interrogation ever made in a court of law, and the answer comprised just three words, "I do not."—Boston Herald.

A German View of Our Diet.

Die Woche of Berlin tells its readers "what Americans eat," taking as a type the average New York business man. Hot cakes, quick lunch dishes, pie, Welsh rabbit, ice cream, grape fruit, oyster cocktails, pork and beans and many other purely American dishes and ice water are referred to as indigestion promoters. "All this," says the writer, "the American eats with relish. They are the dishes of the city and of the country. He balks at only four things—frankfurter sausages, sauerkraut, buttermilk and limburger cheese. These he calls 'Dutch foods.'"

Charlotte Bronte's Wetting.

It is generally believed that "Jane Eyre" was written by Charlotte Bronte on the backs of old envelopes or very small scraps of paper, which the authoress carefully pinned together and numbered. Miss Bronte wrote so small a hand that some of her manuscripts can only be read by the aid of a magnifying glass. It is declared that on a piece of paper no larger than a playing card she would write from 400 to 500 words, and after that would insert so many corrections that the printer found it well nigh impossible to set it up. When she wrote "Jane Eyre" Miss Bronte had read few novels but those by Thackeray, whom she greatly admired. Thackeray complimented the authoress on her great book, but complained that the plot was familiar to him, whereupon Miss Bronte meekly replied that she thought it was original, inasmuch as she had read so little.

KILLED LOVER AND SELF.

Double Tragedy Enacted In Boston Lodging House.

Boston, Mass., Dec. 18.—A double tragedy in the south end was disclosed when the body of Margery Clark, 40 years old, was found in bed in a lodging house on Dover street, with a revolver clutched in her hand, a bullet hole behind her right ear, while beside her lay a man known by the name of Atwood, 40 years old, said to have been her husband, dying from the effects of a bullet wound in the forehead. Atwood died at a hospital without recovering consciousness.

The Clark woman had told some of the lodgers that she had sent for Atwood, who was in Dover. He arrived a week ago and the two had been living together ever since.

Atwood and Mrs. Clark formed an acquaintance more than ten years ago according to the police, but had not seen each other during the past three years until Atwood arrived last week from Dover.

It was stated by the woman's friends that Mrs. Clark heard that Atwood had been married and that she became very jealous. During the past few days they had had frequent quarrels.

Medical Examiner MacDonald said that the woman shot Atwood and then turned the weapon on herself. Atwood was employed as a traveling salesman by the Hartman Trunk company, of Chicago, but made his residence in Dover.

A Miraculous Cure.

The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1 at all drug stores.

Negro Shot By Another.

Macon, Ga., Dec. 18.—Arthur Lewis, a negro was taken to the city hospital suffering from a shot through the body, fired by Buford Allen, another negro. The fight in which a revolver was used, occurred in East Macon. Allen was not captured. Lewis may die.

Officer Mangled by a Bomb.

Accidently Killed Himself.

Jasper, Ind., Dec. 18.—John W. Splawn, a railroad contractor on the Southern, accidentally shot and killed himself at Camp No. 7. It was at first reported he had committed suicide, but the coroner's verdict shows that his death was an accident.

Cotton Buyer Commits Suicide.

Sylvester, Ga., Dec. 18.—T. K. Heinson took his own life by cutting his throat with a razor. He was a prominent business man and capitalist. For the past eight years he has been doing a large supply business and buying cotton in this city. Poor collections caused his tragic death. He came to this city from Muncie, Ind., and at once made himself prominent in business and social circles. He was a member of several of the most prominent secret orders. His remains will be carried to Muncie for burial. Mr. Heinson was interested in the India Fruit company, which own extensive peach orchards in this section.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

Booty Carried on HandCar.

Dallas, Tex., Dec. 1, —The Citizens' bank at Cedar Hill, 15 miles south of here on the Santa Fe, was robbed of $2,500. The burglars used nitro-glycerine in forcing open the safe, and made a clean haul.

A handcar was used in approaching the small station and in carting the booty away, and a blacksmith shop in a small place a few miles distant was rifled for the purpose of obtaining the necessary tools. The discarded handcar has been found, and is the only clew the officers have. Rewards have been offered by the officers of the bank, and by the sheriff.

A Western Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. New Yor, Dec. 18.—Manufacturing jewelers have held informal conferences of late and talked over the subject of making uniform advances in prices of the more staple articles which they make. Without waiting to reach any agreement many say that they have already put up prices on many lines.

Long Tennessee Fight.

For twenty years W. L. Rawls of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists.

THREE BULLETS HIT BURGLAR.

Officer Kills One Robber and Captures Another.

Pitsburg, Pa., Dec. 18.—During a battle with burglars in the store of Mrs. Mary Neenon, at New Kensington, Pa. 10 miles east of this city, Officer James J. Lemon, shot and fatally wounded Elmer Kuhn and captured Albert Romig, young men well known in Kensington.

Early Saturday evening Roming sent word to the police and Mrs. Neenon that an attempt would be made to burglarize the store. Officer Lemon was detailed on the case and was hidden in the store when Kuhn and Romig, both masked, rushed in. Romig pointed a revolver at Mrs. Neenon, while Kuhn held up the young woman clerk. Officer Lemon commanded both men to surrender. Kuhn rushed at the officer to strike him with a blackjack and the officer fired three times, every bullet entering Kuhn's body.

Romig stood at one side and did not resist arrest. Romig claims he notified the police because Kuhn threatened to kill him unless he assist in the robbery. The new Kensington police believe the men were implicated in the murder of Henry Smith, who was recently killed by gurglars.

The thing the railroads seem to need is either fireproof cars or fireproof passengers.

The big Southern cotton crop comes just in time to fill the demand for Santa Claus whiskers.

The people of California agree with Judge Crosscup that "the President's message is a crazy quilt."

Burglars entered the Standard Oil office in Buffalo the other day. The amount of their loss is not reported.

Our old friend, "the war-cloud in the Far East," is limbering up for further exploitation in the newspapers.

One of the considerations that help to make Christmas day merry is the fact that it marks the end of the holiday shopping season.

If, as reported, Boni is to marry a wealthy woman, it looks as if the Gould family ought not to be expected to pay all of his debts.

Since revision of creed is getting to be such a fad among some of the churches, it's almost as hard to be lost as it used to be to be saved.

There must be no trouble with Japan. The women of these United States forbid it. Those lovely Japanese silks would go up in price.

A Texas justice of the peace has decided that a sea turtle is not an animal. Devotees of the green turtle soup habit agree that it's a bird.

A Russian revolutionist recently escaped from Siberia in a barrel of sauerkraut. As an alternative a good many people would have stayed in Siberia.

"There is every reason why a tax system should be revised," said the President. And every taxpayer has a cogent reason why it should be assessed somewhere else.

When Mr. Roosevelt betrays such heat and petuosity as to spell correctly, which he does in his letter to Secretary Root, it should be a sign to him that he is running past his signals.

The criticisms of the President's message seem to be divided between people who want to know why he said what he did and those who want to know why he didn't say what he didn't.

A New Orleans councilman will introduce a new ordinance to prevent the sale of racing tips on the street. That's all right. Can give them away and thereby break more individuals than ever.

A Washington scientist claims that he has found a way of making whiskey without a worm. What is really needed, however, is something that will eliminate the snakes, remarks a contemporary.

The people of California are a queer lot. They admit negro children to the public schools on equal terms with the white children, and object to the cleanly little Jap attending the same schools. Southern people would favor the Jap every time.

TROUBLES OF THE G. O. P.

The trials and troubles of the Republican party are becoming too numerous for the comfort of the Republican leaders. The Philippine folly is becoming more and more a sore spot on the body politic; the Cuban blunder is again made acute by the rival native factions quarreling over the spoils of office; the Panama mess has been raked over by the President, but only promises that the cost will be thrice what was estimated. So far for extra-continental affairs. At home the Republican majority in Congress is restless and secretly opposed to many Presidential policies and not agreed on financial or economic legislation, except that the majority of the majority are agreed to stand pat, while a strong minority of the Republican voters are determined on tariff reform.

The Republican majority of the Senate is discredited in their own States and nationally and Depew and Platt in New York, Dryden and Kean in New Jersey, Penrose and Knox in Pennsylvania, Aldrich and Wetmore in Rhode Island, Lodge in Massachusetts, Gallinger and Burnham in New Hampshire, Foraker and Dick in Ohio, are holding on by their eyelids, and other Senators are even more on the ragged edge in consequence of the latest exposure of the coal land frauds.

The President himself is involved in the Storer scandal, only part of which has yet been made public, and the dismissal of the negro soldiers is a sore spot that will be difficult to heal. Then there is the standing fight between the rival factions of the party for supremacy, which will become more acute as the time for the presidential nomination approaches. Those who think that troubles are confined to the Democratic party should watch the antics of the party in power, and they would learn that of the two the G. O. P. troubles are much the greater.

THE REAL GOOD.

Of the three hundred and sixty-five days in each year, in no one of them is so much happiness concentrated as in that of Christmas. Parents and guardians are made happy by the expenditure of labor and money to please the young, and the refining influence of those acts on their own natures is of more value to them than thrice the amount of gold and silver they have expended in procuring them. Who is the man or woman of fifty or sixty who cannot look back over these vanished years and recall with pleasing associations some token in his or her youth from some kind friend on Christmas?

So will it be now, and from generation to generation. The real good and the extended influence of these gifts to the young we may not presume to measure. In a refining sense they are more durable and far exceed their price in silver or gold.

The ship-subsidy lobby is said to be showing up in force at Washington, and Senator Gallinger is threatening Congressman Burton and other Representatives that if they vote against the subsidy bill the river and harbor bill will meet with opposition in the Senate. Honest Congressmen will not be bluffed by that kind of talk, but let the Senate take the consequences of defeating such appropriations as are honestly needed.

Our old friend, Don Valeriano Asafedita Weyler, is again minister of war in Spain; but he can't very well do anything to Cuba this time.—Memphis Commercial Appeal. That's so. He whom he called "Butcher" Weyler must smile grimly on reading what Gen. Wood is doing in the Philippines.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Sun is in receipt of so many Christmas editions of Florida newspapers that it is impossible for us to refer to each of them as they deserve. All of them reflect credit upon the communities in which they are published, especially in the way of patronage. We would suggest to some of them, however, that the cover pages are not appropriate to a Florida Christmas. Who ever saw Old Santa driving a sleigh to six reindeer through sleet and snow in Florida?

Good schools, good churches and good roads are a grand thing to have in a community. In order to have these things people must be educated to take pride in all these. Your home paper can and will do more to encourage all of these things than any other agency. The school children read with pleasure the home happenings, and as they grow up become interested and make useful citizens. Give the children the home paper to read. It costs you but a trifle.

A recent estimate places the total Roman Catholic population of the United States at 12,651,244, or an increase of 189,151 over a year ago. The total number of churches is 11,814, and the number of children attending parochial schools has increased to 1,066,207. The number of schools is 4,281, and there are 869 colleges or seminaries.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder about the same length of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

THE BULLET OR THE HOLE?

Which Gets Through the Board First? Answers to Odd Questions.

When a bullet is shot entirely through a board, which gets through first—the bullet or the hole the bullet makes? The hole and the extreme point of the bullet get through the board at the same time, but the bullet does not get entirely through the board until after the hole is entirely through. It is evident that the rear of the bullet must be out of the hole it makes before it is entirely through the board, while the hole is entirely through just as soon as the widest part of the bullet has passed through.

How cold is it when it is twice as cold as 2 degrees above zero? There are two zeros, one marked 0 on the thermometer, and one known as absolute zero, which is understood to mark the absence of all heat. The zero of Fahrenheit's thermometer is obtained by immersing a tube of mercury in a mixture of snow and common salt and marking the place where the mercury stands in the tube. Absolute zero is 459 degrees below this zero. Now, "twice as cold" is exactly equivalent to half as hot; therefore, when it is half as hot as 2 degrees above zero, or 461 F., it is 230.5 degrees below the zero on the thermometer.

Is any man strong enough to break an egg held end to end between the palms of his hands? The force required to break an egg in this manner has been found to be between seventy-five and eighty pounds. A great many men can exert this pressure. The probable reason for the failure of many to accomplish it is that they are a little afraid of the result and do not press so hard as they can.

If there was a tunnel through the center of the earth and an iron ball was dropped into it, where would the ball come to rest? Unless it was retarded by the resistance of the air, the ball would go through to the other side and then fall back to its starting point, repeating this operation forever. If retarded by the resistance of the air, it would ultimately come to rest at the center of the earth.

When an automobile turns a sharp corner at a rapid rate of speed, which pair of wheels, inside or outside, leaves the ground? The centrifugal force developed by the automobile is directed outward; therefore it is impossible for it to tip inward. The outside rail of a railroad track on a curve is made higher than the inside rail because of the tendency of the train to tip outward. A practical demonstration may be had by standing on the rear platform of a street car and noting which way the body is thrown when the car turns a curve.

A chicken does not eat anything during the first twenty-four hours of its existence, yet it doubles in size. What does it live on? The amount of the egg left in the chicken's stomach after it is hatched will supply nutriment for several days. As to the apparent increase in size, when the organs are relieved from the compression of the eggshell they expand; therefore the chick appears larger. The down becomes fluffy when dry, and this also increases the size of the chicken, but it is not a fact that there is any great change in the weight during the first day.

Why does an egg weigh more after it has been boiled than before? The increase in weight is due to the moisture which has been absorbed by the porous shell of the egg.—Sunday Magazine.

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed 73 worms. For sale by W. M. A Member For Cork.

A famous character in London when Frazer's Magazine was in its heyday was Sergeant Murphy, member of parliament for Cork. The sergeant was one day at dinner with Samuel Warren, author of "Ten Thousand a Year," and one of the most conceited authors of his own or any other time. This novel was then appearing in Frazer's in serial form. Warren, who was always fishing for compliments, said to Murphy across the table, "Have you read that thing that is coming out in Frazer's?" "What thing?" said Murphy. "'Ten Thousand a Year,'" replied Warren. "Yes, I have read it," admitted the sergeant. "What do you think of it?" continued the novelist. "Hardly fair to ask me," said Murphy, "considering I wrote it myself."

Another acquaintance of Murphy's was constantly addicted to boasting of his aristocratic friends. At a dinner party where there were several Roman Catholics present conversation centered around the subject of fasting, when the sergeant's friend struck in: "It is very strange how little the highest ranks regard fast days. I was dining at the Duke of Norfolk's on a fast day three weeks ago, and there was not a bit of fish at dinner." "I suppose," said Murphy in the midst of the deep silence that followed, "that they had eaten it all in the dining room."—London Tribune.

To Send Flowers by Mail.

Take a long potato and bore a hole through it lengthwise for a holder and shave the outside down with a sharp knife until it can be easily handled. When ready to send the flowers, place their stems in the potato and wrap around this a piece of wet sheet cotton. Over this wrap a sheet of tin foil, carefully covering every part of the holder. The moisture cannot penetrate the paper and will be retained for a long time.—Suburban Life.

Bloody Work of a Jealous Man.

San Francisco, Cal., Dec. 18.—Roy Garrison, a bartender, and Joseph Haefner are dead, and Mrs. Pearl Garrison is seriously wounded because of Heafner's infatuation with the woman. Haefner besought the woman to leave her home with him. Instead she went to the saloon, where her husband was working and was sitting with Garrison at a table when Haefner found her, shot the man and wife and killed himself.

ODD FOUNDATION.

A Town Built on an Immense Bank of Oyster Shells.

The secondary foundation of Crisfield, Md., is the bottom of the Chesapeake bay, and between the bottom of Crisfield and the bottom of the bay are oyster shells to the number of millions, probably hundreds of millions. On this great stratum of oyster shells stand houses, wharfs and business places. A railroad runs along on it, bridges cross its dividing places, men walk and talk and do business, steamboats and sailboats—yes, hundreds of sailboats—have their landings alongside it; merry boating parties put off from the shore by moonlight and fish and crab and return in the early morn—all to this great bank of oyster shells sunk in the blue water.

Crisfield lives by oysters and dies—not by eating them, for Crisfielders rarely eat either, but by catching them, boiling them, packing them, shipping them, selling them. He who would know the crab can best learn it by visiting this wholly and solely crab town on the Chesapeake. Men in boats quickly fill barrels with crabs and bring them ashore to the "factories." Here they are counted, sorted, steamed, packed in barrels and shipped until one wonders who can possibly eat all these mountains and myriads of crabs. There are many people in this country. A crab apiece for them all once a year in the season "would mean some crabs." At least so one of the crab dealers put it.—Philadelphia Record.

What's

Worth doing is worth doing well. If you wish to be cured of rheumatism use Ballard's Snow Liniment and you will be "well cured." A positive cure for sprains, neuralgia, bruises, contracted muscles and all the ills that flesh is heir to. A. G. M. Williams, Navasota, Texas, writes: "I have used Snow Liniment for sprained ankle and it gave the best of satisfaction. I always keep it in the house." Sold by W. M. Johnson.

Drawing a Tooth.

An elephant had a raving toothache, the agony of which caused her to nearly destroy her caravan. She was thrown on her side and roped to stakes. Two men held a pair of ice tongs fast round the aching tooth, and a couple of dray horses attached to the tongs by a rope did the rest. The tooth was sixteen inches long by three inches across.

His Complaint.

Inkwirer—What became of that queer patient you were telling me about last spring? Dr. Price—Oh, he's got a complaint now that's giving me a great deal of trouble! Inkwirer—Indeed! What is it? Dr. Price—Why, a complaint about the amount of my bill.

THE CITY COUNCIL.

Held a Meeting Tuesday Night, But Little Business Was Transacted.

The City Council met in adjourned session Tuesday night, there being present Chairman Broome, Aldermen Bunch, Cushman, Hodges and Taylor, and Clerk J. M. Dell.

The meeting was not of especial interest, as only a few questions of minor importance were brought up

The petition of citizens asking for lights on South University and Pearl streets, which was referred to the light committee a few days ago, was reported upon, and the committee reported that request be refused, as the appropriation was already exhausted in this fund.

The ordinance providing for the compulsive laying of granolithic sidewalks was brought up, and was the object of considerable discussion. It looked to those present as a "monstrous" proposition, embodying the immense sum in aggregate of many thousands of dollars. In fact, it went so far as to look dangerous even to the members of the municipal legislature, and was returned to the ordinance committee and the Board of Public Works, with the request that it be more concisely drawn and reported to the council at a later meeting.

W. L. Denham appeared before the council with a request for permission to open a certain street in East Gainesville. The matter was referred to the street committee, after which the council adjourned until Friday night.

William Cook, colored, was arraigned in mayor's court Tuesday morning upon a charge of using indecent language. Cook apologized to the mayor, stating that he was not aware that he was offensive, when the court, with a heart-full of pity, let him off easy, only requiring the payment of the costs, but admonishing him to keep his mouth shut when it came to indecent language in the future, which Cook promised to do.

The Sun is under obligations to A. L. Vidal & Co., booksellers and stationers, for souvenir copies of a book with views of Gainesville and Alachua county, which is one of the handsomest things of its kind ever offered on the market. The book is neatly arranged with several views, cleverly put together with silk cord, and is bound to be one of the attractions at Vidal's for the season.

M. Wolfenden, a clever young man of Evinston who has been in Jacksonville for the past few months in the employ of the Yellow Pine Lumber Company, passed through the city yesterday en route to his home, where he intends to again reside.
